

## **2 - A CHEER FOR LIFE**

(T&M: SÖREN SCHRÖDER, SOLO: ESTHER JUNG)

### **STROPHE 1**

Lights out, spot on me  
The night's arrived, the show begins  
Drinks cold, air burning  
Everybody's plugged  
Everybody's screamin'

Big crowd, jumpin' high  
Singing loud, as loud as they can  
All night, no burden  
Sin and passion close to me

We're livin... We're livin... We're livin  
Just for a lifetime

### **REFRAIN**

A cheer for the sound - of freedom  
We're breathing in, we're breathing out  
And we liberate  
A cheer for the life we're livin'  
We're not asking why, we gotta get by  
The story of our life

## **STROPHE 2**

I long, long for more  
More noise and rapture of love  
Out of bounce, at full blast  
The speed of life congeals tonight  
We're livin... We're livin... We're livin  
Just for a lifetime

## **REFRAIN**

A cheer for the sound - of freedom  
We're breathing in, we're breathing out  
And we liberate  
A cheer for the life we're livin'  
We're not asking why, we gotta get by  
The story of our life

## **REFRAIN**

A cheer for the sound - of freedom  
We're breathing in, we're breathing out  
And we liberate  
A cheer for the life we're livin'  
We're not asking why, we gotta get by  
The story of our life
